SCENIC

LEISURE

KEFLAVIK

- Keflavík** - is a town in the Reykjanes region in southwest Iceland. As of 2016, its population when combined with the nearby town Njarðvík, is 15,129.

GOLDEN CIRCLE

- Thingvellir National Park** - was founded in 1930 and was designated as a World Heritage Site in 2004. Thingvellir is the most important cultural site and one of the most popular tourist destinations in Iceland.
- Geysir Hot Springs** - This geothermal area is a popular stop for visitors. At this wonderful sight, you can wander among bubbling mud pots and steaming landscapes!
- Gullfoss Falls** - also known as "Golden Falls", one of Iceland's most spectacular waterfalls, located in the canyon of Hvítá river in southwest Iceland. Together with Thingvellir and the geysers, Gullfoss forms part of the Golden Circle. It's an incredible sight that you are not likely to forget.

SNAEFELLJOKULL EXCURSION

- Gatklettur Rock** - is a famous, naturally formed stone arch found between the villages of Arnarstapi and Hellnar on the Snæfellsnes Peninsula.
- Londrangar Rock** - Lóndrangar basalt cliffs are a pair of volcanic lava pinnacles that stick out from the sea on the coastline.
- Kirkjufellssar Waterfall** - is situated in Kirkjufella river at the northern side of Snæfellsnes peninsula in West Iceland. This beautiful five-meter-high fall flows in a couple of levels and is divided into three separate spouts. As you stand before the fall you will see the pyramid-shaped mount Kirkjufell towering above, one of the most scenic and beautiful in Iceland.

REYKJAVIK

- Aurora Borealis** - is a beautiful and mysterious natural phenomenon that occurs when solar winds interact with the Earth's magnetic field, causing high-energy electrons and ions to enter the Earth's atmosphere and collide with gas molecules, releasing energy and producing brilliant lights. The best season for the Aurora Borealis is from Sep till Apr with the most frequent sightings occurring between 6pm to 1am.

The opportunity to witness this visual wonder of nature, it is subjected on weather conditions such as solar activity, cloud cover and other factors and cannot be guaranteed. However, sighting is not confined to this schedule as the "dancing green lights" may show up randomly during your stay in Iceland.

Tour Manager will guide customer where to view the Aurora – it can be surrounding hotel area by walking distance.

Note : Aurora Borealis is a natural phenomenon, Golden Destinations unable to guarantee the appearance of during your visit at anytime.

- Hallgrímskirkja Church** - Reykjavík's most notable Landmarks and is the largest church in Iceland. It's 73 metres tall, and its tower can be seen from almost everywhere in the city.
- Sun Voyager Sculpture** - is a sculpture by Jón Gunnar Árnason, located next to the Sæbraut road in Reykjavík, Iceland. This statue is sculpted out of stainless steel, and represents a voyage following the sun.
- Blue Lagoon** - is the geothermal hot spring is probably the most famous in Iceland, which is a beautiful blue colour. Here you can relax all your cares away, enjoy smearing mud on your face. It is particularly convenient as its near the airport.

Blue Lagoon

Skogafoss Waterfall

Icelandic Salmon Cuisine

SOUTH COAST

- **Seljalandsfoss Waterfall** - is located in south coast of Iceland. The waterfall drops 60 m and is part of the Seljalands River that has its origin in the volcano glacier Eyjafjallajökull. Visitors can walk behind the falls into a small cave.
- **Skogafoss Waterfall** - is one of the largest and most elegant waterfalls in Iceland, it has a width of 25 meters and the cascade drops 60 meters.
- **Black Sand Beach** - is the most famous black sanded beach in Iceland and one of the most well-known in the whole world. This is a place of wild and dramatic beauty where the roaring waves of the Atlantic Ocean power ashore with tremendous force.
- **Jokulsarlon Glacier Lagoon** - is a large glacial lake in southeast Iceland, and it developed into a lake after the glacier started receding from the edge of the Atlantic Ocean. The lake has grown since then at varying rates because of melting of the glaciers. It recently became the deepest lake in Iceland, at over 248 meters and it is considered as one of the natural wonders of Iceland. It appears as "a ghostly procession of luminous blue icebergs".
- **Diamond Beach** - is a strip of black sand belonging to the greater Breiðamerkursandur glacial plain, located by the Jökulsárlón glacier lagoon. As the icebergs in the lagoon melt, they drift out to sea, with many then washing up on the shore. This is a magnificent place for both sunset and sunrise, as the light works its magic through the ice.
- **Myrdalsjokull Hike To The Glacier** - is only about 30 minute walk from our base to the glacier. We walk through the varied landscape on our way, formed by the glacier for the past thousands of years. There you will see how fast the glacier has been melting for the past 15 years.
- **Barnafoss Waterfall** - Above Hraunfossar (lava falls) there is another famous waterfall called Barnafoss (children's fall). According to legend Barnafoss takes its name from two children who fell into the waterfall, a story about a Mother with her two young children.

Winter Tips: Daylight

During winter, Iceland experiences very limited daylight, with only 4-5 hours of sunlight from November to January. Other regions may have different daylight durations depending on their location. Weather conditions can also change rapidly. Strong winds, snowfall, or sudden storms may affect travel plans. Should any adjustments be required during your trip, we will arrange the best possible alternatives to ensure your comfort and safety.

- ✓ 7 Breakfast / 6 Lunch
